

AISHWARYA TIWARI

DATA ANALYST & GO-TO-MARKET (GTM) ENGINEER

Hyderabad, India | aishwaryatiwari274@gmail.com | linkedin.com/in/your-username | rashi274.github.io/mypage

PROFESSIONAL SUMMARY

Results-driven Data Analyst and GTM Engineer with experience in data cleaning, transformation, dashboard development, ETL automation, event tracking instrumentation, and business reporting across freelance and corporate environments. Skilled in Python, SQL, Tableau, Google Tag Manager (GTM), Clay.com, and CRM integrations. Proven ability to automate data pipelines, enrich lead data, run statistical significance tests, and deliver insights that support business growth and operational decision-making.

CORE SKILLS

Tools: Python, SQL, Tableau, Power BI, Pandas, NumPy, MS Excel

Analysis & A/B Testing: Statistical Analytics, A/B Testing, Z-Tests, P-Values

Reporting: BI Dashboards, Data Visualization, Reporting Automation

GTM Operations: Google Tag Manager, Clay.com, Webhooks, APIs

Data Operations: ETL Pipelines, Data Cleaning, Data Quality, Validation

CRM Systems: HubSpot, Salesforce Integration, Lead Scoring

PROFESSIONAL EXPERIENCE

Freelance Data Analyst & GTM Developer

Jan 2024 - Present | Hyderabad, India

Self-Employed

- Developed interactive BI dashboards and reports using Tableau and Power BI, translating client needs into visual solutions.
- Cleaned, profiled, and validated large datasets to improve reporting accuracy and catalog governance by 30%.
- Built automated ETL pipelines using Python and SQL for streamlined reporting workflows.
- Instrumented event tracking (GTM, GA4) and custom lead enrichment workflows (Clay.com) to automate CRM synchronization.

Test Engineer (Data Quality)

Mar 2022 - Sep 2023 | Indore, India

Corporate Analytics Environment

- Performed rigorous data cleaning and validation processes that improved product database data quality by 30%.
- Conducted A/B testing and statistical analysis to evaluate feature conversion trends, contributing to a 15% rate lift.
- Designed interactive, real-time Tableau dashboards to monitor metrics and support operations.
- Automated recurring quality reports using Python and complex SQL queries, reducing manual reporting effort by 40%.
- Collaborated with global teams in the US and China to ensure multi-region data pipeline consistency and sync accuracy.

Assistant System Engineer

Sep 2021 - Mar 2022 | Gurgaon, India

Technology Solutions Firm

- Assisted with engineering data documentation, system health reporting, and issue tracking.
- Analyzed technical system issues, documented resolutions, and improved technical support workflows.

SELECTED PROJECTS

GTM Pipeline & Clay Enrichment Simulator (A/B Test Sandbox)

GTM, CLAY.COM, HUBSPOT API, PYTHON, SQL/DBT, JAVASCRIPT

- Created a live web sandbox demonstrating frontend event tracking triggers, GTM macro variables, and webhook payloads.
- Built a mock enrichment flow using Clay.com APIs to scrape LinkedIn profile details and company size from email domains.
- Coded a Z-test statistical significance engine in JS that calculates conversion lift and p-values based on variant inputs.

Sales Performance & Trend Analysis

PYTHON, TABLEAU, A/B TESTING

- Analyzed regional sales datasets to support recommendations that improved sales performance by 10%.

EDUCATION

Bachelor of Engineering

Graduated: 2019

Samrat Ashok Technological Institute

SELECTED CERTIFICATIONS

- Google Data Analytics Specialization
- Generative AI Prompt Engineering
- Data Through the Art of Visualization
- ChatGPT Advanced Data Analysis
- Data Analysis with R Programming
- Introduction to SQL (Coursera)
