

Aishwarya Tiwari

Data Analyst

Hyderabad, India

aishwaryatiwari274@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Results-driven Data Analyst with experience in data cleaning, transformation, dashboard development, ETL automation, statistical analysis, and business reporting across freelance and corporate environments. Skilled in Python, SQL, Excel, Tableau, Power BI, SAS, A/B testing, hypothesis testing, regression analysis, and data visualization. Proven ability to improve data quality, automate reporting, and deliver insights that support business growth and operational decision-making.

CORE SKILLS

Tools: Python, Pandas, NumPy, SQL, Microsoft Excel, Tableau, Power BI

Analysis: Data Analysis, Exploratory Data Analysis, Statistical Analysis, A/B Testing, Hypothesis Testing, Regression Analysis

Data Operations: Data Cleaning, Data Transformation, Data Validation, ETL Pipelines, Data Preprocessing, Data Quality

Reporting: Dashboard Development, Dashboarding, Data Visualization, Business Intelligence, Reporting Automation

PROFESSIONAL EXPERIENCE

Freelance Data Analyst

Hyderabad, India | Jan 2024 - Present

- Developed dashboards and reports for startups and SMEs using Tableau and Power BI.
- Cleaned and validated large datasets to improve data accuracy and reporting quality.
- Built automated ETL pipelines using Python and SQL for streamlined reporting workflows.

Test Engineer (Data Quality)

Indore, India | Mar 2022 - Sep 2023

- Performed data cleaning, transformation, and validation processes that improved data quality by 30%.
- Conducted A/B testing and statistical analysis to evaluate performance trends and improve conversion rates by 15%.
- Designed interactive Tableau dashboards for real-time monitoring and operational decision-making.
- Automated recurring reports with Python and SQL, reducing manual reporting effort by 40%.
- Extracted, labeled, and cleaned data from email panels and AI-generated datasets for analysis workflows.
- Monitored merchant and vendor data trends, identified anomalies, and supported issue resolution for stable reporting.
- Collaborated with cross-functional teams in China and the United States to ensure data consistency and reporting accuracy.
- Used Microsoft Excel extensively for reporting, reconciliation, and data tracking.

Assistant System Engineer

Gurgaon, Manesar, India | Sep 2021 - Mar 2022

- Assisted with engineering data documentation, reporting, and issue tracking.
- Analyzed product issues, documented resolutions, and improved technical support workflows.
- Coordinated with engineering teams to deliver status reports and technical updates.

PROJECTS

Sales Data Analysis

- Analyzed regional sales datasets using Python and Tableau to identify performance trends.
- Applied A/B testing methods and data visualization techniques to support recommendations that improved sales by 10%.

Healthcare Data Prediction

- Built predictive models for early diagnosis using structured healthcare datasets.
- Queried and processed clinical data from SQL databases to support model development and analysis.

Inventory Management System

- Designed an inventory tracking system using SQL and Excel to improve stock visibility and reduce stockouts by 20%.
- Automated reporting processes to improve inventory monitoring and operational efficiency.

Tata GenAI Powered Data Analytics

Forage Virtual Experience | Jul 2025

- [View Credential](#)
- Completed a simulation focused on AI-powered data analytics and strategy development for Tata iQ's Financial Services team.
- Conducted exploratory data analysis using GenAI tools to assess data quality and identify risk indicators.
- Proposed a no-code predictive modeling framework for customer delinquency risk evaluation.
- Designed an AI-driven collections strategy using automation, ethical AI principles, and regulatory compliance considerations.

EDUCATION

Bachelor of Engineering

Samrat Ashok Technological Institute | 2019
